

TECHOLYMPICS EXPO2010

More to Life than Google

**Presented by
Sundar Kadayam
Founder & CEO, Zakta**

Google dominates search

Over 65% of all Internet searches are done on Google.com and related Google sites (like YouTube)

Source: **comScore**, Feb 2010

But, there's a world of innovation beyond Google

GARNIER FR
ANTI-DAND

brand: [Garnier](#) by [L'Oréal](#)

Given the incomplete information made available by companies and the government, EWG provides additional information on personal care product ingredients from the published scientific literature. The chart below indicates that research studies have found that exposure to one or more ingredients in this product -- not the product itself -- caused the indicated health effect(s) in the studies reviewed by Skin Deep researchers. Actual health risks, if any, will vary based on the level of exposure to the ingredient and individual susceptibility -- information not available in Skin Deep.

Ingredients in this product are linked to:

- ☐ Cancer
- ☒ Developmental/reproductive toxicity
- ☒ Violations, restrictions & warnings
- ☒ Allergies/immunotoxicity

Why this is awesome

1. For the first time, you can actually know the health impact of what you are putting on your body
2. Simple "hazard score" indicates the degree of concern with the product
3. Provides in one glance, the possible health risks, and alternative products as well

SCORE

7

[high hazard \(out of 10\)](#)

1. Take The Cake

★★★★★ 18 reviews

Category: Bakeries

I've eaten lunch here twice now and haven't been disappointed. I had Vietnamese steak Banh Mi

the first time which was great. Second time was a sweet and sour pho with pork followed by Take the Cake's take on a cuban sandwich. Never had anything here that was less than very good. Highly recommended, I need to make it for breakfast/brunch sometime soon also.
